

Role of Insurance in Retirement

**FREE
EVENT**

"Hope for the Best. Prepare for the worst."

- Chris Bradford, The Ring of Earth

India House and Share Our Secrets (SOS) Organization, join together to continue the community education seminar series "The Life After", specifically on one of the most vexing issues faced by the retired and elderly, "Role of Insurance in Retirement".

Seniors, often, do not realize the gaps that exist in their retirement plans that could threaten a comfortable retired lifestyle. The primary purpose of this seminar is to discuss how life insurance, long-term care insurance, and medical insurance can be used to fill the gaps during one's retirement.

The panelists with legal, financial and personal experience on this subject, hope to respond to questions and misconceptions on how these insurances work and what is covered and not covered through these policies. They will also work with seniors on identifying risks in retirement plans, finding the appropriate options to cover those risks, and implementing/monitoring those policies over time.

Intent of the seminar is to provide general information on insurance planning for families and individuals, and is not meant to provide specific advice. Individuals should seek professional or expert help as needed based on their circumstances.

Sunday, February 10th, 2019 | 4:00 PM to 6:30 PM

India House, 8888 West Bellfort Avenue, Houston, TX 77031
